## ENVIRONMENTAL POLICY *FINISHING TECHNOLOGIES INC.*

### Mission statement:

Finishing Technologies Inc. recognizes the significance of safeguarding our natural resources and is dedicated to conserving and improving our environment. We seek to operate our daily business affairs with an environmental awareness and to pass our environmental values and practices to our customers.

### It is Finishing Technologies Inc. policy to:

- Comply with, and if possible exceed the requirements of all current and future environmental laws that relate to our industry.
- Conduct our daily operations in a method demonstrating our respect for environmental quality and our determination to diminish the impact on our precious natural resources.
- Promote environmentally responsible behaviors from our suppliers by requesting certification or verification of Green business practices and technology.
- Eliminate any unnecessary packaging and transport in the delivery of our products to customers.
- Recycle any product material we can on a company level and to support use of products and materials with recyclable content.
